

REMARKS

With the cancellation of claim 8, claims 7 and 9-13 are now pending in the above-referenced application.

With respect to the objection to the drawings for not showing a feature recited in claim 8, the cancellation of claim 8 has rendered this objection moot.

Claims 7 and 9-13 stand rejected under 35 U.S.C. § 102(b) as being anticipated by United States Patent No. 5,800,932 to Suzuki et al. ("Suzuki"). Applicants have amended claim 7 to recite that in option (a) the second element is one of indium and tin. With this amendment, Applicants submit that Suzuki does not teach any of options (a) through (c) of claim 7. Accordingly, withdrawal of this rejection is requested.

Applicants assert that the subject matter of the present application is new, non-obvious, and useful. Prompt consideration and allowance of the application are respectfully requested.

Respectfully submitted,

KENYON & KENYON LLP

Dated: 6/13/06
